

Technological Design Acceptable Work Experience

- architectural/mechanical drafting
- architectural/mechanical engineering
- engineering design technology
- prototyping or constructing material in wood, metal or other media

If you are using Secondary School Teaching Experience to be eligible for this course, your principal must sign a letter that includes:

- the length of time you taught in total
- course codes for each tech course you taught
- duration (in semesters) for each course

If you were self-employed, you must submit a sworn affidavit, a business license, proof of income and a letter from a major supplier/customer to confirm your five years of work experience.

All admission documentation can be emailed to aq@uwindsor.ca.
